**An American Apocalypse as Automatic Archival Alphabetic Anecdote**

Aardvark ate army ants as  
An army attacked: an avalanche—  
Advance!  
Animate

And almost alive, an awareness  
Axes across America's abyss.  
Axiomatic anti-awakening always allows  
Arias, arpeggios abounding around alcohol,  
Altoids, Asterisks, Asses, Astronauts, Anchors, , Asbergers, Aliens, all are...aim—

Advance!  
Advance!  
Advance!

Alive are all animals and automatons,  
Alas  
Articulate ape arguably ain't.  
Armored annular Art  
Allowed  
Arcane amber artistry amplifies as another ancestor attacks  
Able.

Amen.

Armageddon approaches:  
Asian, Arabic, African, Apache, Aztec, American—Annihilated, all.

Are any audience around?  
Absolute Alienation.  
Are antidotes available?  
(Audience Applause.)  
Allow an agnostic alms:

Angels are alive.  
Aether around all.  
An Ark arrives.
